CONTENTS

Application of Computer Vision for Polishing Robot in Automotive Manufacturing Industries
Adnan Rachmat Anom Besari, Ruzaidi Zamri, Md.Dan Md.Palil, Anton Satria Prabuwono 1

Combination Adaptive Traffic Algorithm and Coordinated Sleeping in Wireless Sensor Network
M. Udin Harun Al Rasyid, Eka Saputra Aji, Isbat Uzzin Nadhori 18

Dimensionality Reduction Algorithms on High Dimensional Datasets
Iwan Syarif 28

Indonesian Automatic Speech Recognition For Command Speech Controller Multimedia Player
Vivien Arief Wardhany, Sritrusta Sukaridhoto, Amang Sudarsono 39

Internet Connection Control based on Idle Time Using User Behavior Pattern Analysis
Fadilah Fahrul Hardiansyah, Joko Lianto Buliali, Waskitho Wibisono 49

Optimizing Fuzzy Rule Base for Illumination Compensation in Face Recognition using Genetic Algorithms
Bima Sena Bayu Dewantara, Jun Miura 62

PID Controller Design of Nonlinear System using a New Modified Particle Swarm Optimization with Time-Varying Constriction Coefficient
Alrijadjis, Shenglin Mu, Shota Nakashima, Kanya Tanaka 80
