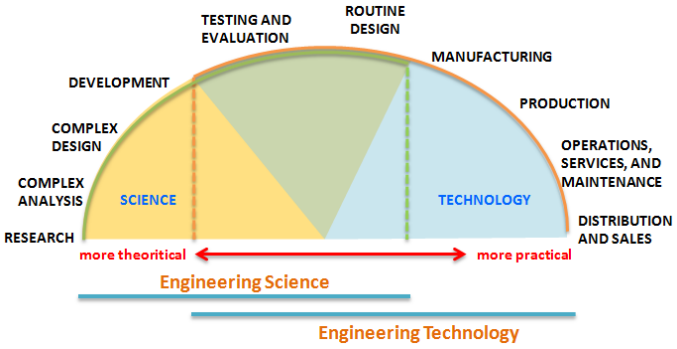
EMITTER is a bi-annual international journal published by Electronic Engineering Polytechnic Institute of Surabaya (EEPIS), Indonesia. It aims to encourage initiatives, to share new ideas, and to publish high-quality articles in the field of engineering technology. It stimulates researchers to explore their ideas and systemize their innovations in the scientific publication on engineering technology.



EMITTER International Journal of Engineering Technology discusses applications of engineering sciences and practise oriented technologies. EMITTER emphasizes on applying current knowledge and practises to the solution of specific technical problems. The article in EMITTER should describe an applicability of basic concepts and engineering sciences to actual applications. It provides the knowledge required to apply state-of-the-art techniques and designs to meet the current needs of society.

EMITTER International Journal of Engineering Technology primarily focuses on analyzing, applying, implementing and improving existing and emerging technologies and is aimed to the application of engineering principles and the implementation of technological advances for the benefit of humanity.

**TOPICS OF INTEREST**

The EMITTER International Journal of Engineering Technology publishes original papers in the field of engineering technology which covers, but not limited to, the following scope:

**Electronics:**

Device and Sensor Technology, Material Science for Electronics, Advanced Communication Systems, Electrical Energy Systems, Electrical Technology and Materials, Power System Analysis, Biophysical Signals & System, Human Physiology, Biosensor & Transducers.

**Mechatronics & Robotics:**

Mechanical Systems Design, Modeling & Analysis of Dynamic Control System, Manufacture and Precision Engineering, Mechanical Systems Design, Advanced Robotics, Control and Intelligent Systems.

**Informatics & Computer:**

Speech & Language Processing, Computer Vision & Image Processing, AI & Pattern Recognition, Network & Web Technology, Network Management and Security, Web Engineering, Real Time Operating System, Computer & Embedded System, High Performance Computing, Multithreaded Real Time Programming, Knowledge Discovery, AI & Pattern Recognition, Modeling and Simulation.

**Telecommunication:**

Network Communication, Mobile Communication Systems, Network Technology, Security System and Technology, Signal Processing System.

**Electrics & Energy:**

Advanced Fluid Mechanics and Thermodynamics, Applied Renewable Energy Technology, Thermal Turbo Machinery, Advanced Fluid Mechanics and Thermodynamics, Applied Non Renewable Energy Technology, Advanced Energy and Environmental Engineering.

**Multimedia Creative Technologies:**

Interactive Entertainment and Multimedia, Multimedia Design, Geometric Modeling, Animation and Interactive Media, Interactive Multimedia Technology, Interactive Design Application, Research Methods in Music and Multimedia, Computer-Aided Learning Technology.

# EDITORIAL BOARD

**Main Advisory Board**
Dr.Eng. Zainal Arief, ST., MT.
(Director of Electronic Engineering Polytechnic Institute of Surabaya)

**Advisory Board**
Dr. Ir. Titon Dutono, M.Eng.
Ir. Dadet Pramadihanto, M.Eng., Ph.D.
Dr. Ir. Son Kuswadi

**Editor-in-chief**
Ali Ridho Barakbah, S.Kom., Ph.D.

**Associate Editor-in-chief**
Eko Henfri Binugroho, S.ST, M.Sc.

**Editorial Board**
Drs. Achmad Basuki, M.Kom., Ph.D. (EEPIS, Indonesia)
Amang Sudarsono, ST., Ph.D. (EEPIS, Indonesia)
Dr. Ana Sasa Bastinos (Fluid Operations, German)
Dr. Arman Jaya, ST., MT. (EEPIS, Indonesia)
Dr. Asako Uraki (Keio University, Japan)
Dr. Cahya Rahmad (Malang State Polytechnic, Indonesia)
Dr. Dhany Arifianto (Institut Teknologi Sepuluh Nopember, Indonesia)
Dr. Ir. Dedid Cahya Happyanto, MT. (EEPIS, Indonesia)
Dr. Ir. Endra Pitowarno, M.Eng. (EEPIS, Indonesia)
Dr. Ir. Era Purwanto, M.Eng. (EEPIS, Indonesia)
Ass.Prof. Hiroyuki Masuta (Toyama Prefecture University, Japan)
Dr. Huai-Kuei Wu (Ling-Tung University, Taiwan)
Dr.Eng. I Gede Puja Astawa, ST., MT. (EEPIS, Indonesia)
Dr.Eng. Indra Adji Sulistijono, ST., M.Eng. (EEPIS, Indonesia)
Dr. Khoirul Anwar (Japan Advanced Institute of Science and Technology, Japan)
Dr. Kosuke Takano (Kanagawa Institute of Technology, Japan)
Dr. Masato Saito (University of the Ryukyus, Japan)
Dr. Moechammad Sarosa (Malang State Polytechnic, Indonesia)
Prof. Naofumi Yoshida (Komazawa University, Japan)
Novie Ayub Windarko, ST., MT., Ph.D. (EEPIS, Indonesia)
Riyanto Sigit, ST., M.Kom., Ph.D. (EEPIS, Indonesia)
Dr.Eng. Rusminto Tjatur Widodo, ST. (EEPIS, Indonesia)
Shiori Sasaki, Ph.D. (Keio University, Japan)
Sritrusta Sukaridhoto, ST., Ph.D. (EEPIS, Indonesia)
Dr. Surya Sumpeno (Institut Teknologi Sepuluh Nopember, Indonesia)
Tessy Badriyah, S.Kom, M.Kom., Ph.D. (EEPIS, Indonesia)
Dr. Totok Suhardijanto (University of Indonesia, Indonesia)
Tri Harsono, SSi., M.Kom., Ph.D. (EEPIS, Indonesia)
Dr. Tubagus Maulana Kusuma (Gunadarma University, Indonesia)
M. Udin Harun Al Rasyid, S.Kom, Ph.D. (EEPIS, Indonesia)
Young Bong Seo, Ph.D. (Pusan National University, Korea)
Dr. Yasuhiro Hayashi (Chitose Institute of Science and Technology, Japan)
Prof. Yukari Shirota (Gakushuin University, Japan)

# CONTENTS

**Secure Ubiquitous Sensor Network based on Elliptic Curve Menezes Qu Vanstone as Status Data Supply of Environment in Disaster Management**
Ismed Jauhar, Amang Sudarsono, Mike Yuliana ..... 1

**Performance of Channel Estimation Technique in MIMO-OFDM System Using m-PSK Modulation**
Musayyanah, Yoedy Moegiharto, I Gede Puja Astawa ..... 11

**Performance Evaluation of DCT And Wavelet Coding of Image Transmission By Using of DM Technique Over Topical Shallow-Water Environment**
Sendi Eka Nilasari, I Gede Puja Astawa, Tri Budi Santoso ..... 25

**The Design of Terrestrial Trunked Radio (TETRA) Communication System at Juanda Airport**
Devi Miasari, Ari Wijayanti, Okkie Puspitorini ..... 37

**Analysis of Channel Coding Performance in OFDM Technique for Underwater Acoustic Communication System**
Machmud Roby Alhamidi, I Gede Puja Astawa, Tri Budi Santoso ..... 47

**Implementation and Analysis Audio Steganography Used Parity Coding for Symmetric Cryptography Key Delivery**
Afany Zeinata Firdaus, Mike Yuliana, Mochamman Zen Samsono Hadi ..... 58

**The Comparison of Propagation Model for Terrestrial Trunked Radio (TETRA)**
Ayu Kartika R, Hani'ah M, Nur Adi S ..... 67

**Performance Evaluation of Beacon-Enabled Mode for IEEE 802.15.4 Wireless Sensor Network**
M. Udin Harun Al Rasyid, Ferry Astika Saputra, Alfian Fahmi ..... 77

**Smart I'rab: Smart Aplicasion for Arabic Grammar Learning**
Syd. Ali Zein Farmadi, Ali Ridho Barakbah, Entin Martiana Kusumaningtyas ..... 86

**Mobile Application to Identify Indonesian Flowers on Android Platform**
Tita Karlita, Achmad Basuki, Lakmi Makarti ..... 96

**Automatic Representative News Generation using On-Line Clustering**
Marlisa Sigita, Ali Ridho Barakbah, Entin Martiana Kusumaningtyas, Idris Winarno ..... 107

**Semi Automatic Retargeting for Facial Expressions of 3D Characters with Fuzzy logic Based on Blendshape Interpolation**
Moh. Zikky, Mochamad Hariadi, Muhtadin ..... 115

**Automatic Delineation of Cardiac Cavity Images Using Triangle Method**
Riyanto Sigit, Mohd. Marzuki Mustafa, Aini Hussain ..... 139

**Analysis of EEG Signal for Determining the Nature of Humans Using Backpropagation**
Ahmad Reza Musthafa, Tri Harsono, Setiawardhana ..... 155

# Guide for Authors

The manuscript is written in Microsoft Word 97-2003 document, single space, Cambria 12 pt and minimum 8 pages on A4 paper (210 x 297 mm). The paper should be written in English. Before submission please make sure that your paper is prepared using the journal paper template. The authors must refer to EMITTER journal template and can be downloaded from emitter.eepis-its.edu.

1. Abstract
   An Abstract should be viewed as a mini version of the paper. The abstract should provide a brief summary of important messages of each section of the paper : Background of the Problem (~1 sentence), Problem and its interest (1-2 sentences), Solution (~5 sentences), and Performance (~2 sentences). The Abstract should not exceed 250 words. It should be typed as a single paragraph, and written in Cambria 11 pt.
2. Introduction
   The introduction should also provide the rationale for the present study. Choose references carefully to provide the most important background information. Organization and citation of the bibliography are made in Vancouver style in sign [1], [2] and so on. The introduction should include: (1) Background of the problem, and (2) Problem of the research and its interest. It presents possible clarity, the nature and scope of problem investigated.
3. Related Works
   The related work is a literature review with describes the work that has been done and explain your position work. After reading your related work section, a reader should understand the key idea and contribution of each significant piece of related work, how they fit together and how your work differs.
4. Originality
   Originality contains claim of the uniqueness for the proposed approach as the solution to the problem. It also discusses the basic idea of the proposed approach and the reasons for the choice of the approach.
5. System Design
   The main purpose of this section is to describe (and if necessary defend) the experimental design and then provide enough detail so that a competent worker can repeat the experiments
   5.1 Tables and Figures
   The title of the table should be concise and not divided into two or more clauses or setences. Tables and their caption are presented center. All tables should be numbered with Arabic numerals. Headings should be placed above tables and center. The table, figure number and caption should be typed below the illustration in Cambria 11 pt and center. Graphics may be full color. Figures should be placed at the top or bottom of a page wherever possible, as close as possible to the first reference to them in the paper.
   5.3 Equations
   Equations and formulae should be typed 11 pt and numbered consecutively with Arabic numerals in parentheses on the right hand side of the page (if referred to explicitly in the text).
6. Experiment and Analysis
   First, you should give some kind of overall description of the experiment, providing the "big picture". Second, you should present analysis of the experimental results. The results of the experiment need to be clearly and simply stated because it is the results that constitute the new knowledge that you are contributing to the world.
7. Conclusion
   Please include a brief summary of the possible clinical implications of your work in the Conclusion section. It also can be followed by suggestion or recommendation related to further research.
8. Acknowledgements
   You should acknowledge any significant technical help that you received from any individual, whether in your laboratory or else where.
9. References
   References should be added at the end of the paper, and its corresponding citation will be added in the order of their appearance in the text. Authors should ensure that every reference in the text appears in the list. References are written in Vancouver style. All reference items must be in 12 pt font.
